

The ArmorSource ASDH, Desert Harness System, was developed specifically to provide comfort and safety under extreme environmental conditions. This field-tested harness retention system provides helmet stability, greater safety, and enhanced comfort. The ArmorSource line of ergonomic harnesses pass a wide range of ballistic and environmental evaluations, providing the wearer extended protection and well-fitted, superior comfort.

The ASDH system incorporates a fast release, adjustable slides, and a fitted, flexible chin cup. In addition, the ASDH model:

- includes a complete kit with Suspension and Retention features, ergonomic chin strap, and easy-to-adjust, fast-release buckles;
- has been thoroughly field-tested in extremely high temperatures;
- features comfortable, non-toxic materials; and
- helps reduce trauma from ballistic and non-ballistic impacts.
