

The ArmorSource ASPS H-Back, part of the ArmorSource Progressive Line of Harnesses, features a Full ACH System complete with helmet padding. This field-tested harness system was designed to provide the wearer extended protection, greater helmet stability, and enhanced comfort.

The ArmorSource line of ergonomic harnesses pass a wide range of ballistic and environmental evaluations, providing the wearer extended protection and well-fitted, superior comfort. The ASPS system incorporates a fast release, adjustable slides, and an ergonomic chin cup. In addition, the ASPS model:

- includes a complete kit with Suspension and Retention features;
- includes a 7-piece full padding system, ergonomic chin strap, buckles and bolts;
- is available in bolt or boltless style;
- has been thoroughly field-tested;
- features a fast-release buckle system; and
- helps reduce trauma from ballistic and non-ballistic impacts.
