

The ArmorSource ASRH, part of the ArmorSource Progressive Line of Harnesses, provides a robust, secure, and solid harness system. This field-tested harness was designed to provide the wearer solid protection and suspension in case of a ballistic or non-ballistic impact.

The ArmorSource line of ergonomic harnesses pass a wide range of ballistic and environmental evaluations, providing the wearer excellent protection and well-fitted, superior comfort. The ASRH system incorporates a fast release, adjustable slides, and an ergonomic chin cup. In addition, the ASRH model:

- includes a complete kit with Suspension and Retention features;
- includes ergonomic chin strap, enforced buckles and bolts;
- is constructed of strong, durable, yet comfortable materials;
- has been thoroughly field-tested;
- features a fast-release buckle system;
- is designed to provide comfort and safety in extremely high temperatures; and
- helps reduce trauma from ballistic and non-ballistic impacts.
