

Aire Carbon

PRODUCT INFORMATION SHEET

ACH Shape Non-ballistic Safety Helmet

The ArmorSource 'Aire Carbon' Helmet is a non-ballistic helmet for training and outdoors intense activities.

Put the safety of the users before everything, ArmorSource' boltless and hole-less Aire-Carbon shell is made of lightweight combination of carbon fiber and composite materials.

The Aire Carbon was designed for training and operational activities such as jumping, diving, and boating. With weight of approximately 600-800 grams (1.3-1.8 lbs.) the AIRE Carbon provides the user a helmet that looks and feels like the U.S. Army ACH, together with Blunt Impact protection in accordance with the U.S. Army specifications.

- Compatible with ACH, LWACH, ACH GEN II and MICH helmets sizing, cuts and configurations.
- Extremely comfortable due to its ultra-lightweight and flexible chinstrap and pad system.
- Uses a robust safety technology.
- No holes on shell to increase the user's safety
- Blunt impact performance is kept under extreme conditions (extreme hot, extreme cold and saltwater/wet activity).
- Proudly made in the United States.

Full-cut Military Version / Special Command High-cut Version

Shape	U.S. ACH / MICH Geometry
